ABOUT US

The identity is already in the name, the final image is the clear expression of the technique that becomes decoration, a distinctive feature of the project. As always in the Bathos collections, human thought meets technological evolution to give life to a product through the absolute strength of the material.

From the interpretation of its essence come unique collections and products such as One Piece Toilet, the Wall hung Toilet, Wash basin, etc. like the trunk of a tree, rises from the ground to conclude with an elegant and natural crowning.
